

**“If you can not test it, you can not make it.”**

**How does BOTE OPTICS ensure that the lenses delivered meet your requirements?**

**Centration Tester \* 3 sets**

**PV&RMS test by ZYGO interferometer\*1, Interferometer by INTERFER \*3 sets**

**Transmittance and refractive index testing by AGILENT Spectrophotometer\* 1**

**IR Spectrophotometer by Shimadzu**

### **3-Coordinate Measuring**

4-

Thermal Shock Chamber

5-

Wear Resistance Testing Machine

6-

Contourgraphy Taylor Hobson

Axis X&Y test\*1

Axis Z test\*3 sets

**Imaging Quality test by MTF Trioptics\*1**

**CNC blanking\*3 sets, Wire Cutting Machine\* 1**

**Lenses Polishing Machine\* 20 sets**

**Polishing Machine\* 8 sets, Workshop of Prisms, Windows&Mirrors**

**Diamond Single-point Turning Machine**

**Centering Machine\* 3 sets**

**Vacuum Coating Machine\*5sets**

**Lens Assembly and Inspection**
